FEDERAL MILK MARKET ADMINISTRATOR  
FORT WAYNE INDIANA MARKETING AREA

Federal Milk Order #32  
U. S. Department of Agriculture  
Dairy Division  
Agricultural Marketing Service

\* FEB 25 1959

507 Strauss Building  
809-11 S. Calhoun St.  
Fort Wayne 2, Indiana  
Telephone A-7401

STATISTICAL SUMMARY FOR THE YEAR 1958

The attached three pages are intended to give all interested parties a summary of the volume of milk received and utilized by the handlers subject to the Fort Wayne Order; what the handlers paid producers for this milk and how official prices were computed. Figures were compiled from handlers' reports.

TABLE OF CONTENTS AND EXPLANATION

Table 1 Farm Production

The volume of Grade "A" milk shipped to the Fort Wayne market by months and years; numbers of producers and the average test of producer milk..... Page 1

Table 2 Farm Prices - For 3.5% Test Milk

The 3.5% prices that handlers paid into the market wide pool and the resulting prices that producers received. Premiums paid over the uniform price are also shown..... Page 1

Table 3 Farm Values at Average Test

The actual value of producers milk at the test used in each class and the actual value to the farmer of the average test of milk shipped..... Page 1

Table 4 Average Manufacturing Prices

The price of 92 Score butter on the Chicago market; Cheddar Cheese at Wisconsin assembly points; and prices paid by manufacturing plants in the Chicago area for Roller and Spray skim milk powder..... Page 2

Table 5 Basic and Alternate Formula Prices

Formula prices computed from the prices listed in the above table and average prices paid by 4 area manufacturing plants. The highest of these alternate formula prices in each month is the Class II or Basic Formula price..... Page 2

Table 6 Standard Differentials and Supply Demand Adjustments

How the amounts were determined which were added to the Class II price in establishing the Class I price in each month..... Page 2

Table 7 Class I - Market Utilization

Total milk allocated to Class I; the volume of other source milk and overrun; and the volume of producer milk utilized in this class..... Page 3

Table 8 Class II - Market Utilization

The same as the above except Class II figures are given..... Page 3

Table 9 Analysis of Class I Utilization

Total Class I utilization is broken down into Fluid Milk, Skim Milk Products, Cream Products, and Class I Shrinkage in this analysis..... Page 3

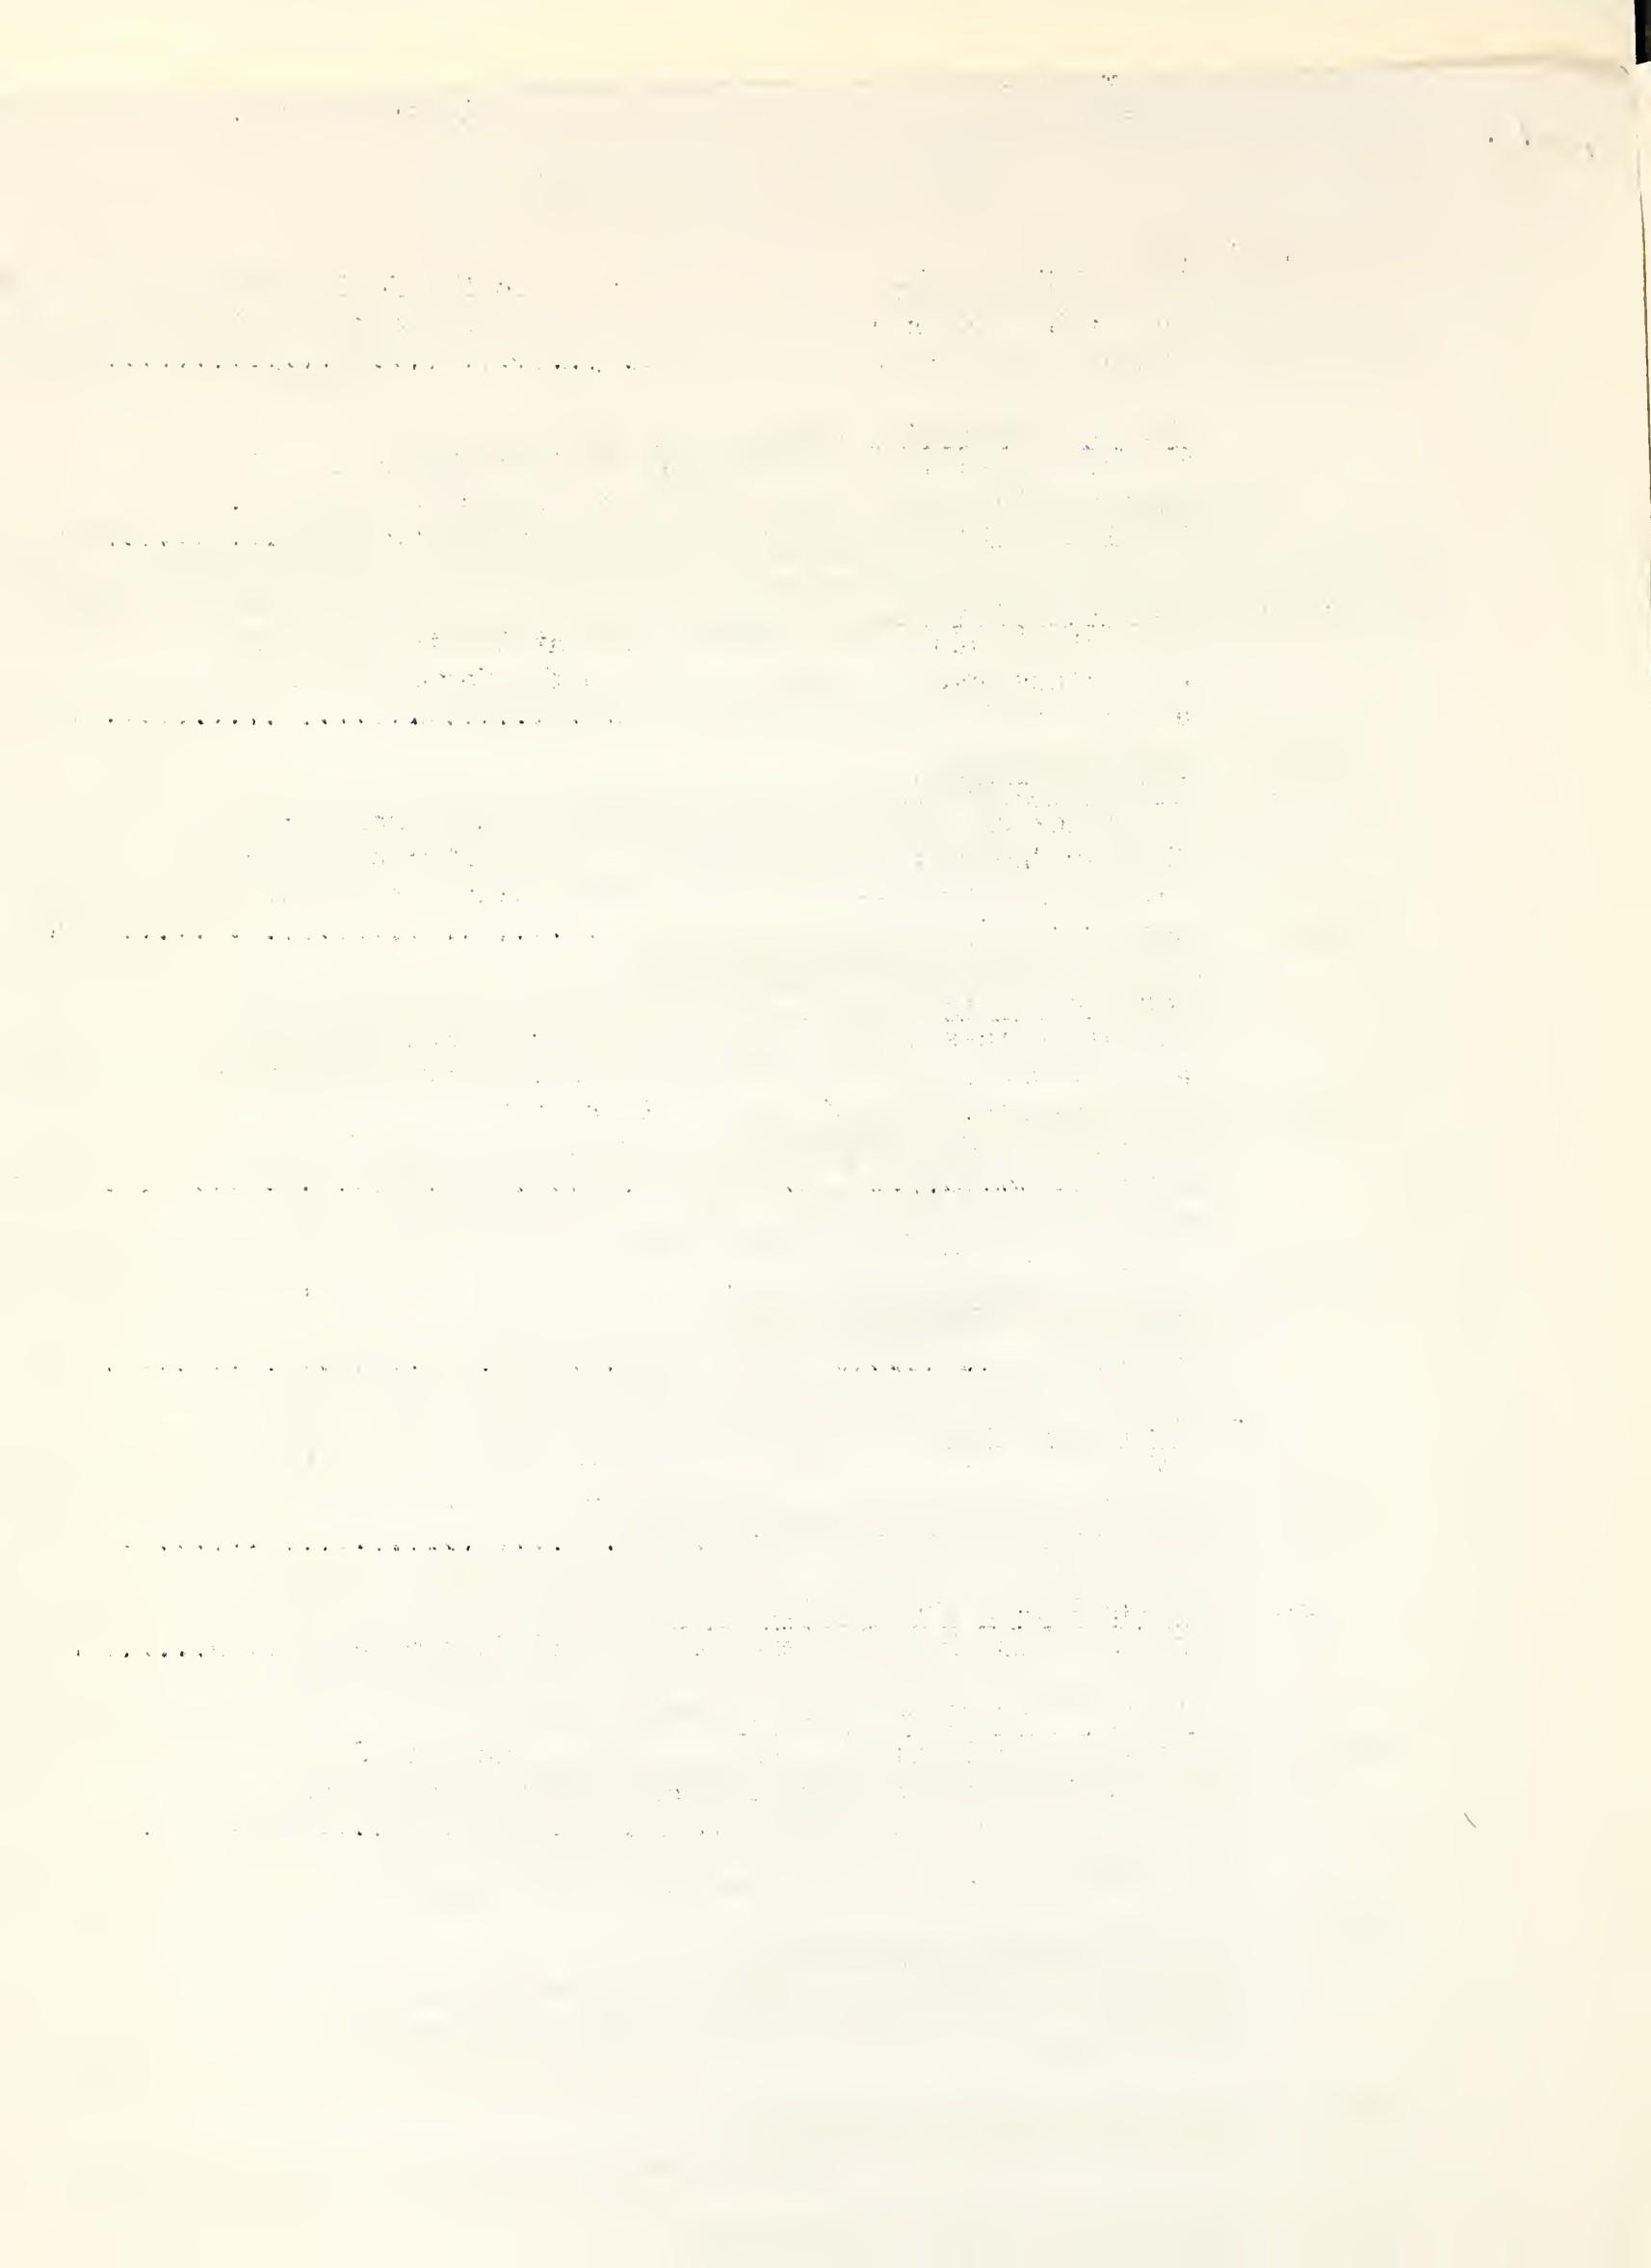

Table 1
